## Key takeaway

Detailed insight for Employment status in Armidale Regional (A) is not yet available for the current filters.

## About this topic

Employment status shows whether people aged 15 years and over are employed full-time or part-time, unemployed, or not in the labour force. It is one of the main Census indicators of labour market participation and economic engagement.

This topic is useful for understanding workforce participation, unemployment, and the broader socio-economic profile of an area. Results from 2021 should be read carefully because COVID-19 restrictions increased the number of people who were employed but away from work around Census time.

## Interpretation notes

- Labour force status is based on the week before Census night for people aged 15 years and over.
- In 2021, lockdown instructions could shift more people into 'employed, away from work', so over-time comparisons need care.
- The 'away from work' group also includes people who reported having a job but did not state hours worked.
