Sources and method

- Source: Australian Bureau of Statistics, Census of Population and Housing, 2021 and, where available, 2016 comparison data.
- Percentages are calculated from the denominator supplied for each topic. Change (pp) is the 2021 percentage minus the 2016 percentage when the topic is comparable across years.
- Usual residence topics describe where people usually live, rather than where they were counted on Census night.

SECTION

01

Key takeaway

In 2021, 5.6% (242) of people in Balonne (S) were born overseas, compared with 18.4% in Regional Qld. A further 83.8% (3,597) of people were born in Australia.

About this topic

Birthplace records the country in which a person was born. It is a core measure of migration history and cultural diversity and helps distinguish Australia-born and overseas-born populations.

This topic is useful for understanding settlement patterns and the likely language, service, and support needs of different communities. It should be interpreted together with ancestry, language used at home, and religion for a fuller view of cultural diversity.

Interpretation notes

- Country of birth measures birthplace only; it does not capture ancestry, ethnicity, or current citizenship on its own.
- Use birthplace with ancestry and language when interpreting cultural background, because many cultural groups include both Australia-born and overseas-born people.
