# Birthplace

Bridgetown–Greenbushes (S) | Regional WA comparison | Persons

Community report section 1 of 1

## Key takeaway

In 2021, 20.9% (1,086) of people in Bridgetown–Greenbushes (S) were born overseas, compared with 17.7% in Regional WA. A further 70.8% (3,676) of people were born in Australia.

## About this topic

Birthplace records the country in which a person was born. It is a core measure of migration history and cultural diversity and helps distinguish Australia-born and overseas-born populations.

This topic is useful for understanding settlement patterns and the likely language, service, and support needs of different communities. It should be interpreted together with ancestry, language used at home, and religion for a fuller view of cultural diversity.

## Interpretation notes

- Country of birth measures birthplace only; it does not capture ancestry, ethnicity, or current citizenship on its own.
- Use birthplace with ancestry and language when interpreting cultural background, because many cultural groups include both Australia-born and overseas-born people.
