Key takeaway

In 2021, doing unpaid domestic work was the most common response among residents aged 15 and over in Brookton (S), accounting for 63.8% (491 people). This share was lower than Regional WA (66.3%). Since 2016, the biggest change was in not doing unpaid domestic work, which increased by 29 people and 4.8 percentage points.

About this topic

Unpaid domestic work measures how much time people aged 15 years and over spent doing housework for their household in the week before the Census. It helps show the distribution of unpaid labour that supports home and family life.

This topic is useful for understanding household roles, time pressures, and gender or life-stage differences in unpaid work. It is best read with household type, employment, and income, because the amount of unpaid domestic work can be shaped by family structure and the ability to outsource tasks.

Interpretation notes

- The hours refer to unpaid domestic work done for the person's household in the week before the Census.

- This topic does not measure childcare, disability care, or other unpaid help unless it falls within domestic work for the household.
