

Community report

Canterbury-Bankstown (A)

Prepared from Community Explorer topic selections for briefing, planning and reporting use.

AREA

Canterbury-Bankstown (A)

COMPARISON

Greater Sydney

POPULATION

Persons

GENERATED

2 April 2026

Included sections

1 selected topic will be included in this report.

01 Five year age groups

Sources and method

- Source: Australian Bureau of Statistics, Census of Population and Housing, 2021 and, where available, 2016 comparison data.
- Percentages are calculated from the denominator supplied for each topic. Change (pp) is the 2021 percentage minus the 2016 percentage when the topic is comparable across years.
- Usual residence topics describe where people usually live, rather than where they were counted on Census night.

Five year age groups

Canterbury-Bankstown (A) | Greater Sydney comparison | Persons

Community report section 1 of 1

Key takeaway

In 2021, 30 to 34 year olds was the largest age group among residents in Canterbury-Bankstown (A), accounting for 7.5% (27,791 people). This share was lower than Greater Sydney (8%). Since 2016, the biggest change was in 60 to 64 year olds, which increased by 3,154 people and 0.5 percentage points.

About this topic

Five year age groups show the population in standard five-year cohorts from early childhood through older age. Because each band covers the same span of years, the topic gives a clear and comparable view of an area's age structure.

This topic is useful for identifying growth or decline in specific cohorts and for comparing age patterns across places and over time. For service planning, it is often read together with service age groups, household types, and dwelling types.

Interpretation notes

- Age is reported as at Census night, so the counts are a snapshot of the resident age structure at that point in time.
- Because each band covers the same five-year span, this topic is best for exact cohort comparison rather than service-planning life stages.
