### Included sections

1 selected topic will be included in this report.

**01** Household size

### Sources and method

- Source: Australian Bureau of Statistics, Census of Population and Housing, 2021 and, where available, 2016 comparison data.
- Percentages are calculated from the denominator supplied for each topic. Change (pp) is the 2021 percentage minus the 2016 percentage when the topic is comparable across years.
- Usual residence topics describe where people usually live, rather than where they were counted on Census night.

# Household size

Casey (C) | Greater Melbourne comparison | Persons

Community report section 1 of 1

## Key takeaway

In 2021, two-person households was the most common household size among households in Casey (C), accounting for 26.5% (30,063 households). This share was lower than Greater Melbourne (31.3%). Since 2016, the biggest change was in two-person households, which increased by 5,260 households, while its share fell by 0.4 percentage points.

## About this topic

Household size shows how many people live in each household. It is a basic but important measure of family life, dwelling use, and the way people share housing.

This topic helps indicate demand for different dwelling sizes and can reflect life-cycle patterns, cultural norms, and affordability pressures. It is best read with household type, age structure, and dwelling type, because changes in household size can happen for very different reasons.

## Interpretation notes

- This counts the number of people usually resident in the dwelling, so it describes shared living arrangements rather than dwelling size.
- Household size should be read with bedrooms or dwelling structure before drawing conclusions about crowding or housing suitability.

## Household size

Casey (C) – Households (Enumerated)

Category	2021			2016			Change	
	Count	%	Greater Melbourne %	Count	%	Greater Melbourne %	Count	pp
Number Of Persons Usually Resident One	17,639	15.6%	24.8%	14,058	15.3%	23.2%	+3,581	+0.3
