Included sections

1 selected topic will be included in this report.

01 Unpaid domestic work

Sources and method

- Source: Australian Bureau of Statistics, Census of Population and Housing, 2021 and, where available, 2016 comparison data.
- Percentages are calculated from the denominator supplied for each topic. Change (pp) is the 2021 percentage minus the 2016 percentage when the topic is comparable across years.
- Usual residence topics describe where people usually live, rather than where they were counted on Census night.

Unpaid domestic work

Cockburn (C) | Greater Perth comparison | Persons

Community report section 1 of 1

Key takeaway

In 2021, doing unpaid domestic work was the most common response among residents aged 15 and over in Cockburn (C), accounting for 69.5% (66,098 people). This share was higher than Greater Perth (68.5%). Since 2016, the biggest change was in doing unpaid domestic work, which increased by 7,203 people, while its share fell by 1 percentage point.

About this topic

Unpaid domestic work measures how much time people aged 15 years and over spent doing housework for their household in the week before the Census. It helps show the distribution of unpaid labour that supports home and family life.

This topic is useful for understanding household roles, time pressures, and gender or life-stage differences in unpaid work. It is best read with household type, employment, and income, because the amount of unpaid domestic work can be shaped by family structure and the ability to outsource tasks.

Interpretation notes

- The hours refer to unpaid domestic work done for the person's household in the week before the Census.

- This topic does not measure childcare, disability care, or other unpaid help unless it falls within domestic work for the household.

Unpaid domestic work
