Included sections

1 selected topic will be included in this report.

01 Individual income

Sources and method

- Source: Australian Bureau of Statistics, Census of Population and Housing, 2021 and, where available, 2016 comparison data.
- Percentages are calculated from the denominator supplied for each topic. Change (pp) is the 2021 percentage minus the 2016 percentage when the topic is comparable across years.
- Usual residence topics describe where people usually live, rather than where they were counted on Census night.

Individual income

Cuballing (S) | Regional WA comparison | Persons

Community report section 1 of 1

Key takeaway

In 2021, 400 To 499 was the most common category among residents aged 15 and over in Cuballing (S), accounting for 10.9% (82 people). This share was higher than Regional WA (7.3%).

About this topic

Individual income shows the gross amount of personal income usually received by people aged 15 years and over. It includes wages, salaries, government payments, and other income reported in the Census.

This topic is useful for understanding the distribution of personal incomes across an area, but it is a point-in-time snapshot rather than a measure of wealth. The dollar ranges are presented for the latest Census year only, so quartile-based income topics are better for comparing income profiles over time.

Interpretation notes

- Total personal income is weekly gross income usually received by people aged 15 years and over.
- Income is not the same as wealth, and fixed dollar ranges are less reliable for over-time comparison because prices and wages change.

Weekly individual income

Cuballing (S) – Persons aged 15+ (Usual residence)

Category	2021 count	2021 %	Regional WA %
Negative Nil Income	50	6.6%	7.2%
1 To 149	19	2.5%	3.1%
