## Key takeaway

In 2021, Year 12 or Equivalent was the most common schooling level among residents aged 15 and over in Cumberland (A), accounting for 60.9% (114,764 people). This share was lower than Greater Sydney (64.5%). Since 2016, the biggest change was in Year 12 or Equivalent, which increased by 16,000 people and 3.4 percentage points.

## About this topic

Highest level of schooling shows the highest year of primary or secondary school completed by people aged 15 years and over. It describes school attainment rather than post-school qualifications.

This topic helps indicate educational attainment and can support analysis of access to employment, training, and services. It is best read with qualifications and other socio-economic indicators, because school completion alone does not show a person's full skill profile.

## Interpretation notes

- This records the highest year of primary or secondary school completed by people aged 15 years and over.

- It is not a measure of post-school qualifications, so it should be read with non-school qualifications for full attainment.
