### Included sections

1 selected topic will be included in this report.

**01** Language used at home

### Sources and method

- Source: Australian Bureau of Statistics, Census of Population and Housing, 2021 and, where available, 2016 comparison data.
- Percentages are calculated from the denominator supplied for each topic. Change (pp) is the 2021 percentage minus the 2016 percentage when the topic is comparable across years.
- Usual residence topics describe where people usually live, rather than where they were counted on Census night.

# Language used at home

Fremantle (C) | Greater Perth comparison | Persons

Community report section 1 of 1

## Key takeaway

In 2021, English was the most common language used at home among residents in Fremantle (C), accounting for 81.1% (25,861 people). This share was higher than Greater Perth (74%). Since 2016, the biggest change was in English, which increased by 3,702 people and 4.4 percentage points.

## About this topic

Language used at home shows which languages people speak in their home life and whether English or another language is used most often. It is a key indicator of cultural diversity and language retention within communities.

This topic is useful for planning communication, multicultural services, and local engagement. It should be analysed together with proficiency in English and birthplace, because language alone does not show migration history or support needs.

## Interpretation notes

- The Census records the language used most often at home, so it does not capture every language a person can speak.
- Language used at home is not a measure of English proficiency, literacy, or migration history on its own.

## Language used at home - Ranked by size

Fremantle (C) - Total persons (Usual residence)
