## Key takeaway

In 2021, not providing unpaid child care was the most common response among residents aged 15 and over in Glamorgan/Spring Bay (M), accounting for 75% (3,389 people). This share was higher than Regional Tas. (69.2%). Since 2016, the biggest change was in not providing unpaid child care, which increased by 700 people and 5.3 percentage points.

## About this topic

Unpaid childcare records whether people aged 15 years and over spent time looking after a child without pay, including their own children and other people's children. It reflects the role of parents, grandparents, extended family, and community networks in caring for children.

This topic helps show how childcare is supported outside the paid care sector and can highlight the role of family-based care. It is best interpreted with household type, employment, and income, because unpaid childcare patterns are shaped by family structure, work arrangements, and access to formal childcare.

## Interpretation notes
