### Included sections

1 selected topic will be included in this report.

**01** Qualifications

### Sources and method

- Source: Australian Bureau of Statistics, Census of Population and Housing, 2021 and, where available, 2016 comparison data.
- Percentages are calculated from the denominator supplied for each topic. Change (pp) is the 2021 percentage minus the 2016 percentage when the topic is comparable across years.
- Usual residence topics describe where people usually live, rather than where they were counted on Census night.

# Qualifications

No usual address (SA) | South Australia comparison | Persons

Community report section 1 of 1

## Key takeaway

In 2021, no qualification was the most common qualification level among residents aged 15 and over in No usual address (SA), accounting for 36.1% (1,073 people). This share was lower than South Australia (40.8%). Since 2016, the biggest change was in vocational, which increased by 95 people and 1.2 percentage points.

## About this topic

Qualifications records the highest non-school qualification completed by people aged 15 years and over. It describes post-school educational attainment such as certificates, diplomas, and university degrees.

This topic is a key indicator of skill level and socio-economic opportunity within an area. It is most useful when read with employment status, occupation, and income, which show how qualifications relate to labour market outcomes.

## Interpretation notes

- This topic uses highest completed non-school qualification, so incomplete study and current enrolment do not count as attained qualifications.

- It applies to people aged 15 years and over and should be read with schooling for the full education profile.

## Highest qualification achieved

No usual address (SA) – Persons aged 15+ (Usual residence)

Category	2021			2016			Change
