Included sections

1 selected topic will be included in this report.

01 Household income

Sources and method

- Source: Australian Bureau of Statistics, Census of Population and Housing, 2021 and, where available, 2016 comparison data.
- Percentages are calculated from the denominator supplied for each topic. Change (pp) is the 2021 percentage minus the 2016 percentage when the topic is comparable across years.
- Enumerated topics describe where people or dwellings were counted on Census night.

Household income

Lockhart (A) | Regional NSW comparison | Persons

Community report section 1 of 1

Key takeaway

In 2021, \$400 to \$499 was the most common household-income band among households in Lockhart (A), accounting for 10.3% (125 households). This share was higher than Regional NSW (7.3%).

About this topic

Household income shows the combined gross income reported for households. Because households are the common economic unit for sharing housing and living costs, this topic is widely used in socio-economic analysis.

This topic helps indicate economic resources, but income is not the same as wealth and can be strongly affected by household composition, retirement, and labour force participation. The dollar ranges are shown for the latest Census year only, so household income quartiles are more suitable for comparisons over time.

Interpretation notes

- Total household income combines gross weekly income reported for the household and is affected by how many people contribute income.
- Because it is not adjusted for household size or composition, it should not be treated as a direct measure of living standards.

Weekly household income

Lockhart (A) – Total households (Enumerated)

Category	2021 count	2021 %	Regional NSW %
Negative Nil Income	15	1.2%	1.7%
1 To 149	11	0.9%	0.7%
