Community report section 1 of 1

## Key takeaway

In 2021, Employed was the most common category among residents aged 15 and over in Lower Eyre Peninsula (DC), accounting for 97.2% (2,765 people). This share was higher than Regional SA (95.2%). Since 2016, the biggest change was in Employed, which increased by 229 people and 1.9 percentage points.

## About this topic

Employment status shows whether people aged 15 years and over are employed full-time or part-time, unemployed, or not in the labour force. It is one of the main Census indicators of labour market participation and economic engagement.

This topic is useful for understanding workforce participation, unemployment, and the broader socio-economic profile of an area. Results from 2021 should be read carefully because COVID-19 restrictions increased the number of people who were employed but away from work around Census time.

## Interpretation notes

- Labour force status is based on the week before Census night for people aged 15 years and over.

- In 2021, lockdown instructions could shift more people into 'employed, away from work', so over-time comparisons need care.

- The 'away from work' group also includes people who reported having a job but did not state hours worked.
