## Meander Valley (M)

Prepared from Community Explorer topic selections for briefing, planning and reporting use.

AREA

**Meander Valley (M)**

COMPARISON

**Regional Tas.**

POPULATION

**Persons**

GENERATED

**2 April 2026**

### Included sections

1 selected topic will be included in this report.

**01** Household income quartiles

### Sources and method

- Source: Australian Bureau of Statistics, Census of Population and Housing, 2021 and, where available, 2016 comparison data.
- Percentages are calculated from the denominator supplied for each topic. Change (pp) is the 2021 percentage minus the 2016 percentage when the topic is comparable across years.
- Enumerated topics describe where people or dwellings were counted on Census night.

# Household income quartiles

Meander Valley (M) | Regional Tas. comparison | Persons

Community report section 1 of 1

## Key takeaway

In 2021, the lowest household income quartile held the largest share among households with income in Meander Valley (M), accounting for 26.7%.

## About this topic

Household income quartiles group households into four evenly sized income ranges so relative income position can be compared across places and across Census years. They provide a distribution view of household income rather than a simple count in fixed dollar brackets.

This topic is useful because raw household income amounts are influenced by inflation and broader economic shifts. Quartiles make it easier to see whether an area's households are concentrated toward lower, middle, or higher income positions over time.

## Interpretation notes

- This is a derived distribution of total household income, so each quartile shows relative position rather than a fixed income bracket.

- It is useful for over-time comparison because quartile groupings are less distorted by inflation than raw dollar bands.
