## Northern Grampians (S)

Prepared from Community Explorer topic selections for briefing, planning and reporting use.

AREA

**Northern Grampians (S)**

COMPARISON

**Regional Vic.**

POPULATION

**Persons**

GENERATED

**5 April 2026**

### Included sections

1 selected topic will be included in this report.

**01** Household size

### Sources and method

- Source: Australian Bureau of Statistics, Census of Population and Housing, 2021 and, where available, 2016 comparison data.
- Percentages are calculated from the denominator supplied for each topic. Change (pp) is the 2021 percentage minus the 2016 percentage when the topic is comparable across years.
- Enumerated topics describe where people or dwellings were counted on Census night.

# Household size

Northern Grampians (S) | Regional Vic. comparison | Persons

Community report section 1 of 1

## Key takeaway

In 2021, 2 persons was the most common household size among households in Northern Grampians (S), accounting for 37.4% (1,832 households). This share was higher than Regional Vic. (36.4%). Since 2016, the biggest change was in 1 person, which increased by 128 households and 1.2 percentage points.

## About this topic

Household size shows how many people live in each household. It is a basic but important measure of family life, dwelling use, and the way people share housing.

This topic helps indicate demand for different dwelling sizes and can reflect life-cycle patterns, cultural norms, and affordability pressures. It is best read with household type, age structure, and dwelling type, because changes in household size can happen for very different reasons.

## Interpretation notes

- This counts the number of people usually resident in the dwelling, so it describes shared living arrangements rather than dwelling size.

- Household size should be read with bedrooms or dwelling structure before drawing conclusions about crowding or housing suitability.
