## Key takeaway

In 2021, Managers was the most common occupation group among employed residents in Oberon (A), accounting for 17.8% (437 people). This share was higher than Regional NSW (13.4%). Since 2016, the biggest change was in Professionals, which increased by 47 people and 0.8 percentage points.

## About this topic

Occupation of employment classifies employed residents by the kind of work they do in their main job. It describes the roles, skills, and tasks people perform rather than the industry they work in.

This topic is useful for understanding the skill profile and socio-economic characteristics of the resident workforce. It is best interpreted with qualifications, individual income, and industry sector of employment.

## Interpretation notes

- Occupation classifies the kind of work done in a person's main job, not the employer's industry.
- It applies to employed people aged 15 years and over, so it should be read with employment status when assessing labour market conditions.
