Included sections

1 selected topic will be included in this report.

01 Industry sector of employment

Sources and method

- Source: Australian Bureau of Statistics, Census of Population and Housing, 2021 and, where available, 2016 comparison data.
- Percentages are calculated from the denominator supplied for each topic. Change (pp) is the 2021 percentage minus the 2016 percentage when the topic is comparable across years.
- Usual residence topics describe where people usually live, rather than where they were counted on Census night.

Industry sector of employment

Richmond (S) | Regional Qld comparison | Persons

Community report section 1 of 1

Key takeaway

In 2021, Agriculture Forestry And Fishing was the most common industry of employment among employed residents in Richmond (S), accounting for 37.1% (152 people). This share was higher than Regional Qld (4.3%). Since 2016, the biggest change was in Manufacturing, which decreased by 15 people and 3.5 percentage points.

About this topic

Industry sector of employment shows the industry in which employed residents work, based on the main business activity of their employer. It describes the sectors residents are connected to through work, whether they work locally or commute elsewhere.

This topic helps explain the economic profile and skill base of a resident workforce. It is best read together with occupations, employment status, and travel to work, because it reflects resident employment rather than the number of jobs located in the area.

Interpretation notes

- Industry describes the main business activity of the employer in a person's main job, not the occupation they perform.
- It applies to employed people aged 15 years and over and reflects resident workers, not the number of jobs located in the area.
